The Elections-Virginia.

The returns of the elections of Thursday last for county officers have in them element of discouragement to the De- lywood should prepare to drape their mocratic party. The Populist leaders of Virginia will absolutely necessary to see the great show. meet in convention in Richmond on the 7th of June. Then we shall all learn what the good Democrats intend to do this year who can find no other method of expressing their " Democratic convictions" than that of voting with the Populists.

The City Democratic Committee-Our City Committee has decided that nominations for our legislative ticket shall be made by a convention. That decision was incontestably within the scope of its authority, and therefore the party is bound by the acts of its re-

It has always been the custom of this committee to vote upon the question whether such nominations should be made by a primary or by a convention. We dare say that its records for a quarter of a century will show that it has always, or nearly always, discussed and decided which of the two modes it would adopt. As late as 1889 it adopted the convention mode. Al of us submitted to its decision then; all of us should submit to its decision now. Had it transcended its authority no one would have been bound; but having acted within the scope of its authority, honestly and with good intent, all good loyal Demo crats are bound by its action.

The DISPATCH, which was the first newspaper here to advocate the adoption of the primary-election system, has not said that it preferred a convention to a pri-mary. It is not fair that we should be so represented. What we did say was that, here in Richmond it has been determined that the nominations shall be made by a convention. It is believed that it will be easier to persuade suitable men to submit their claims to a convention than to persuade them to undergo the fatigue d cost of a primary election. We trust

that it will prove to be so."

And yesterday we further said that "we believe the sanction of the Democracy of Richmond will be heartily given to the convention system if it can be shown that it will probably give us a stronger legislative ticket than we can expect as a result of a primary."

In other words we have loyally ac. RYS; you know the place, No. 1001 it. quiesced in the decision of the committee | Main street. The City Committee is yet to decide high quality but not high-priced, and out of fashion if you do. Our stock is

when the convention shall meet. We reiterate our opinion that it ought not to be held before the State Democratic Con-are also showing the best vention is held. Our nominations ought not to be made "early" or "late"-but about the usual time. And we insist that it devolves upon

views on the income-tax question, but have failed to gain their point. Nobody in Washington except himself knows what he intends to do as to that matter. It strikes us that the President's silence

indicates pretty clearly that he favors an meome-tax or is inclined that way. Such a tax is so unpopular amongst Mr. CLEVE-LAND'S associates in New York that he would make known the fact if he were opposed to it. His silence is constrained.

Our City Democratic Committee has cities to a convention instead of a primary for the nomination of members of the Legislature from this city. This was a most remarkable de-tizion. For a number of years past—so many, indeed, that custom has caused it to be looked upon as law—our representatives in the Gene-pal Assembly of Virginia have been elected at

primaries, and it is very strange that this year that mode of choosing them should be changed. The Richmond *Times* yesterday made the above statement the premises for two

The Virginia fishery force has been shooting at the crabbers again to-day in Pocomoke Sound, says a Crisfield (Md.) dispatch to the Raitimore Sun. There is no law, as far as can be understood, against crabbing in this sound, and the people cannot understand what induces the officials of Virginia to act in this high-handed manner. A committee of crabbers waited on Dr. G. T. Atkinson, president of the board of town commissioners, to induce him to write to Governor Brown.

CARRON, Va., May 20.—One of the large boilers of the saw-mill of G. W. Truibb & Co., located here, exploded this morning causing a complete wreck to all ove boilers. The loss is estimated at between \$10,000 and \$15,000. Pieces of the boiler were blown about 500 yards. The company worked a large force of hands, and at this writing I cannot say how many are hurt, or to what extent, but it seems no one is seriously injured, which is miraculous. Dr. Pierce's Pleasant Pollets are known. Pills of American manufacture easily lead. Why! Because they're smaller; the vegetable extracts are concentrated. There are many liver pills, yet there must be a reason why Dr. Pierce's Pellets give the best satisfaction. Probably because they're sugar-coated, small as grains of mustard seed, therefore, easily swallowed. Most of all—they act in a natural way, and are effective in result. Then, too, after they're taken they can't be feit—so different from the old-fashioned pills, with their griping and violence.

For indigestion, pain in stomach, costiveness and habitual constipation, as well as sick and bilious headaches, these "Pellets" bring such a lasting sure, that they can be guaranteed. Your money is returned, if they do not give satisfaction. FIRST PRESBYTERIAN

Going to the shore? It's time to think about the Bathing-Suit. Ten to one it'll be troublesome to find what you want if you delay--and what more gangling picture of humanity than a son in a misshapen, ill-fitting pathing-suit? There's great responsibility on such a garb. It may be pretty---had just as well See our success in having pretty ones created. Real indigo blues, unhurt by Old Sol's kiss or Neptune's embrace.
